

HXE4B-230 BATTERY POWERED CRIMP TOOL

DESCRIPTION

The HXE4B Battery Powered Crimp Tool is a hand held, self-contained crimp tool intended to crimp copper and aluminum cable #26 to #8 AWG with DMC "Y" Dies (M22520/5-XX and others).

Dies in various crimp patterns are also available for insulated and uninsulated terminal lugs, wire splices and end caps relating to AS7928, MS17143, MS25036, MS25181, MS27429, MS25274, MS20659, M81824, MS21003 through MS21015, and commercial part numbers. Several power contacts too large for conventional hand tools are also covered by interchangeable dies for the HXE4B.

Typical "Y" Die Set

Hexagonal crimp dies are available in a variety of combinations having single, double, and even triple cavity design. These dies accommodate most coaxial and shielded connectors and contacts conforming to MIL-PRF-39012, AS39029, and numerous proprietary configurations.

If your application requirement is not already covered by one of our standard dies, our engineering department will be pleased to discuss a design to suit your needs, consult DMC for details.

The HXE4B meets the requirements of RoHS Directive 2002/95/EC.

* This tool is available with an optional pre-tensioned pushrod to hold the product in the crimping position (spring loaded closed) without operator assistance. P/N HXE4AB
